

Creating a PDFx1a with Adobe InDesign

These instructions will work for the Creative Suite versions.

1. Open Adobe InDesign.

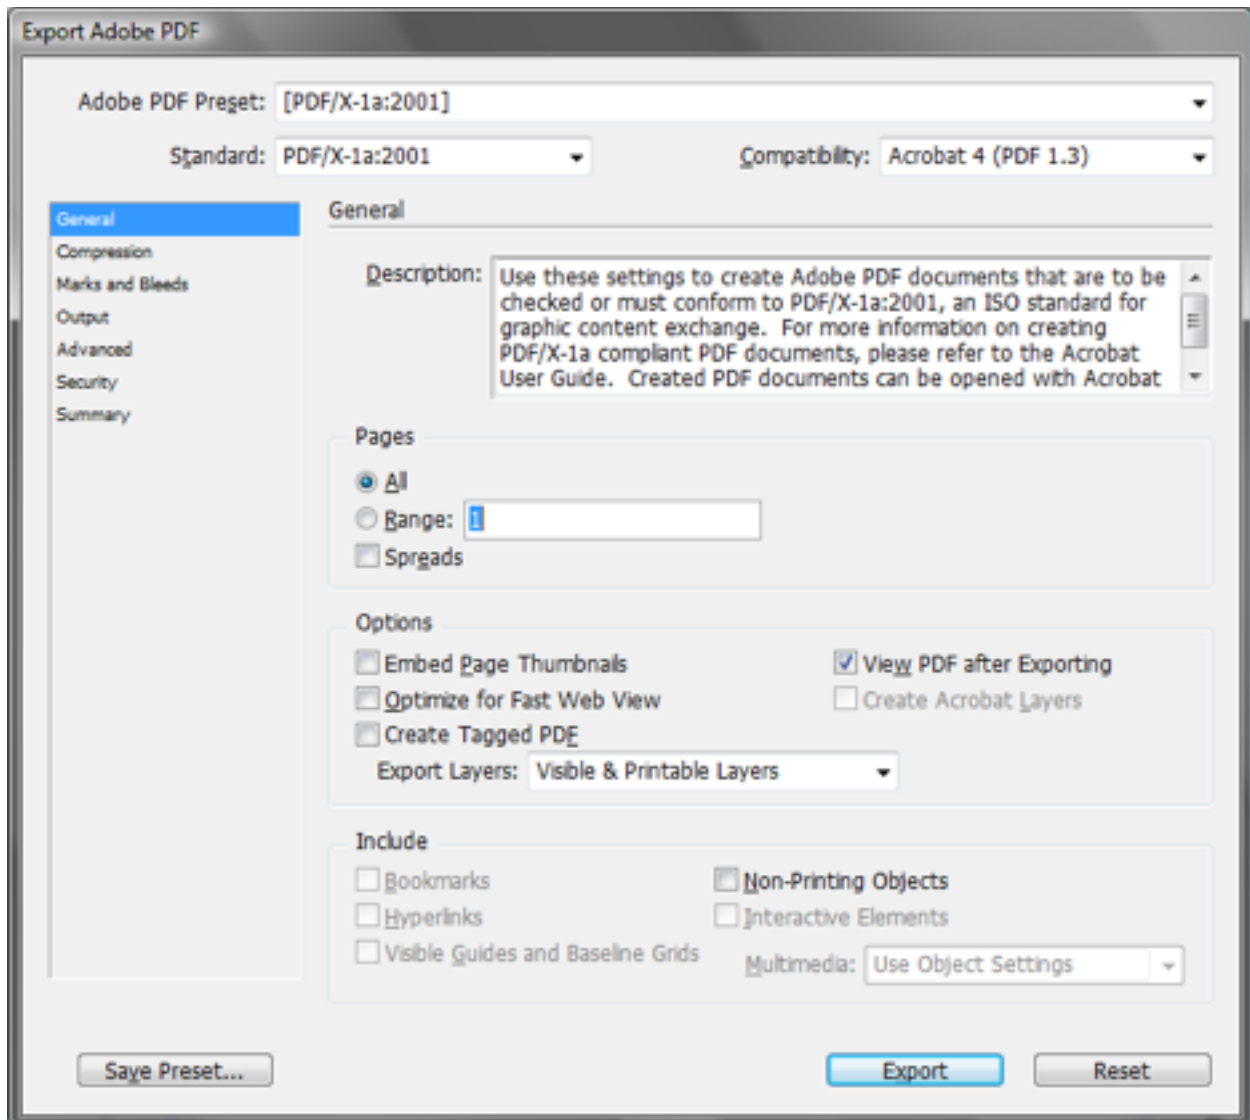

2. Open your file.

3. Go to File > Adobe PDF Presets > [PDF/X-1a:2001]...

4. Enter a File name and click the **Save** button.

5. In the Export PDF window, click the **Export** button.

6. The PDF will open after it has been created.
